5A, LIBYA. Remember that the RRDXA German group should be active this weekend (**November 23rd through December 4th**) as **5A7A**. Activity will include the **CQWW CW Contest** as a Multi/Single entry from the 5A1A station. QSL via DL3KDV.

9G, GHANA (Update). The DXpedition to 9G by G3VMW, G4RWD and G4ZVJ has been reported to be on schedule and to begin on **November 21st and last through December 2nd**. Their operation will include a Multi-Single entry in the **CQWW CW Contest** as **9G5VJ**. Outside the contest they will concentrate on 160, 80 meters and the WARC bands using their own personal callsigns (**9G5SW/G3VMW, 9G5WD/G4RWD & 9G5VJ/G4ZVJ**). Please QSL via their home calls. For further details of the operation, see the following web site: <http://www.bramham.demon.co.uk>. The DXpedition logs will be available on-line from the web site after the operation is completed.

9M2, PANGKOR ISLAND (West Malaysia). Don, G3OZF, will be operating as **9M2/G3OZF** from **AS-072, Pulau Pangkor**, from **November 24th to December 2nd**. Activity will be from 80-10 meters (possibly 160, but unlikely), with the emphasis on CW, but some SSB on 40/20/15/10 meters. He will be in **CQWW CW Contest** for the weekend of **November 29-30th**. QSL to home call.

AH2, GUAM. Look for JF1SQC, JK3GAD, JR7OMD and others to participate in the **CQWW CW Contest** as **AH2R** and as a Multi/Single entry. QSL via JI3ERV.

BY, CHINA. Harold, W0RI, and Merv, K9FD, are in the process of planning a trip in either **December or January** to **BY1QH**. They report the BY club is in need of an amplifier, and they have purchased one to "hand carry" over. The main purpose of the trip is to put BY on the low bands, 160/80/40 meters for a full week. They are currently asking for any donations to help defray the cost of the amplifier. They state anything at all helps out and any donations over \$5 will be returned if for some reason the trip is cancelled. The rest of the donations will go into

the QSL/postage/equipment fund for BY1QH. All the operators at BY1QH are students with very limited funds; actually nothing for ham radio. This is why they are trying to help out. Also, they hope that they can put BY in as many low band logs as possible. If conditions are poor, they will be on the high bands as much as possible. If you would like to help, donations can be mailed to W0RI: Harold P. Smith, 742 Henry Ave, Manchester, MO 63011

CF5, CANADA. Members of the **Weyburn ARC** located in Saskatchewan are allowed to use the **CF5 prefix** instead of VE5 from **December 22nd through January 5th** to celebrate the **50th anniversary of the Royal Canadian Army Cadet Corps of Weyburn.** A commemorative certificate is available by working three CF5 stations. - Ken, WA8JOC/CY0AA, has put all the direct **OH0/K8MN** QSLs in the mail. This also includes a "few" miscellaneous **A22**, and **OH2** cards. The majority of the cards were from Dave's 1997 trip in September. For those that included SASEs/IRCs, the response will be direct; all others were via the bureau. The bureau cards will be sent out to the bureau within the next few weeks. Duplicate QSLs will not be issued for QSOs received via the bureau and returned direct earlier. Please remember that Ken states that he only process bureau cards twice annually. Direct cards ARE processed more frequently.
- If you were lucky to work the special callsign **5J2X** from La Guajira, Colombia. QSL via HK3DDD. Guajira, (mostly desert area) is situated in the northeast part of the country. The Zone 2 region of Colombia is also good for the 10 Zone "ZHK" Diploma.
